

# You have received a new 'Amending Tasmania's climate change legislation' submission

## Form Summary

First name: Ann

Last name: Hamilton

Organisation name: Individual

Email address:

Submission: Thank you for the opportunity to make a further submission and I welcome the proposed changes to the Act. I am however disappointed that the Government has failed to include provisions to ensure that climate change will be central to the development and implementation of all policies and decision-making by state government agencies and government business enterprises and by local government. In my original submission I referred to s 17 of the Victorian Climate Change Act 2017 and urge the Government to consider a similar provision, including in respect of not only projected impacts - but also potential, direct, indirect and cumulative impacts, with the specified Acts including at least those referred to in my original submission - Energy Co-ordination and Planning Act 1995 Electricity Supply Industry Act 1995 Environmental Management and Pollution Control Act 1994 Forest Practices Act 1985 Gas Industry Act 2019 Government Business Enterprises Act 1995 Land Use Planning and Approvals Act 1993 Major Infrastructure Development Approvals Act 1999 State Policies and Projects Act 1993 Water & Sewerage Industry Act 2008

Consent to publish: Yes, I am happy for my submission to be published
