**Subject:** Emissions Reduction and Resilience Plan - Transport

Dear ReCFIT,

I am writing in response to the request for submissions to the draft Transport plan for emission reduction and resilience.

Electric Highway Tasmania (EHT) would like to express full support for the submission prepared by the Tasmanian Branch of the Australian Electric Vehicle Association which reflects the views of EHT as an organisation.

I note that the shareholders of EHT are all members of AEVA.

Best regards,

Clive Attwater  
Managing Director  
Electric Highway Tasmania P/L
